ABOUT US

Woodland Africa Pet Ltd is a unique and nature-focused business founded in 2018 in Mogotio, Kenya. Operating under the personal name of its founder, Woodland Africa Pet Ltd, we are a specialized breeder and exporter of live exotic reptiles and a cultivator of natural Aloe Vera products. Though we do not function as a registered company, our operations are guided by strong ethical values, respect for biodiversity, and a deep understanding of nature's balance. Our core offerings include the breeding and supply of Leopard Tortoises (*Stigmochelys pardalis*) and a diverse variety of Chameleons, such as *Trioceros jacksonii*, *Trioceros hoehneslii*, *Trioceros ellioti*, and *Kinyongia bohmei*.
